Dear Mr President,

It is time Jessica Profeta's Dominican nationality is fully restored and respected, along with all other Dominicans of Haitian descent facing a similar situation of statelessness. Jessica must be allowed to attend school and continue her education without obstacles. She must be able to access her identity documents, including birth certificates, identity cards, and passports. Please take appropriate steps to fight discrimination and prejudice against Dominicans of Haitian descent, Haitian migrants and black people in the country.

Yours sincerely
